

6516205991.txt

Dear FCC Representative,  
I strongly urge the FCC to reject the National Association of Broadcaster's petition 04-160. I consider this petition to be both unfounded and unfair petition and only represents the interests of this lobbyist group. It is in essence trying to undermine the freedom of choice for those of us who choose to pay for commercial free satellite broadcasts. Please do not let this strong-armed lobbyist group take this freedom of choice away from us.

Sincerely,  
Brian Waters
